- Seat belts and retractors
- Interlocks (ADA)
- ADA decals
- Drive shaft guards
- Rear heat and air conditioning
- Back-up alarms
- Safety equipment (certain packages)

Braun offers many ADA-compliant packages to meet your transit needs. Due to the wide variety of floorplans and options available, please contact Braun for more information and complete specifications of each Paratransit package.

The optional Braun-built APD door system is constructed of lightweight aluminum with heavy-duty hinges for long service life. Your attendants will appreciate the ease of operation, while passengers benefit from the wide ambulatory entry and full 90° swing.

With a wide variety of floorplans featuring multiple wheelchair securement locations and ambulatory seating options, Braun Paratransit Vans are ready for reliable service in your fleet.

Certain models feature a stepwell at the front passenger door. The 30" raised top offers plenty of headroom for the driver and ambulatory passengers
