

2027 E-350 Cutaway 12 & 2 W/C and 14 Rear Luggage

The KSIR E-350 12 Passenger and 2 W/C bus are two of our most popular buses. Our Model E3-238 measures 23'10" in length providing increased legroom. Our unique "Draft Free A/C in the rear has the evaporator ducts mounted in the front bulkhead providing even air distribution throughout the coach.

Our standard build has both the Driver & Copilot seats installed in the cab. The OEM Ford seats are the High Back Captains chairs, not the base Ford seat. All of our chassis come with the factory Ford radio system as standard.

Front and rear Fiberglass caps are standard as is our interior low nap carpeted sidewalls and ceiling. Every bus has both floor and sidewall welded seat track so the seats are secured to the steel subfloor for an extra safe anchorage.

All Buses have a full body paint with Clear Coat as a standard feature. KSIR buses are manufactured with Curved Sidewalls with no added metal skirts. Full Steel Cage Fiberglass construction. The W/C doors are contoured to match the curvature of the body.

Standard Features:

- All steel cage including steps.
- Full body white paint with clear coat at N/C.
- Seamless full height Curved Fiberglass Walls; no separate "skirts".
- Frameless Windows.
- Front & Rear Caps.
- One piece Fiberglass roof.
- Upgraded Alternator.
- Power window & door locks.
- Altro or Ger Flor flooring.
